A. Charles Darwin's five-year voyage on H. M. S. Beagle has become legendary and greatly influenced his masterwork, the book, *On the Origin of Species*. But the exotic plants and animals he encountered challenged his thinking and led him to consider scientific evidence in new ways.

B. The 19th century was a remarkable time for exploration. Vast portions of the globe, such as the interior of Africa, were mapped by explorers and adventurers. C. Louis Pasteur's various investigations convinced him of the Tightness of his germ theory of disease, which holds that germs attack the body from outside. From observatories, like the one at Chichen Itza, they tracked the progress of the war star, Mars.

F. Bali has been a surfing hotspot since the early 20th century, and continues to attract surfers from all over the world.
