

*Образуйте от слова **SCIENCE** однокоренное слово так, чтобы оно грамматически и лексически соответствовало содержанию текста.*

### **The World's Language**

The English language is famous for the richness of its vocabulary. Webster's New International Dictionary lists 450,000 words, and the new Oxford English Dictionary has 615,000, but that is only part of the total. Technical and \_\_\_\_\_ terms would add millions more.
