

**ЕГЭ по английскому языку 06.06.2013. Основная волна. Урал. Вариант 3**

При выполнении заданий с кратким ответом впишите в поле для ответа цифру, которая соответствует номеру правильного ответа, или число, слово, последовательность букв (слов) или цифр. Ответ следует записывать без пробелов и каких-либо дополнительных символов. Так как на экзамене распознавание апострофа в бланках ответов будет затруднено, записывайте ответ в полной форме, например: donotknow, вместо don'tknow.

Если вариант задан учителем, вы можете вписать или загрузить в систему ответы к заданиям с развернутым ответом. Учитель увидит результаты выполнения заданий с кратким ответом и сможет оценить загруженные ответы к заданиям с развернутым ответом. Выставленные учителем баллы отобразятся в вашей статистике.

## Women and the maths problem

Women's underachievement in maths may not be due to their poor self-image in the subject, a new report suggests. Researcher Dr. Gijbert Stoet at the University of Leeds says that the so-called "stereotype threat" theory — which holds that women perform worse than men because they expect to do badly — "does not stand up to scrutiny".

Earlier research had serious flaws, he says, with improper use of statistical techniques and methodology. Clearly, those who carried out this research need to review their own competence in maths. Stoet believes the gender gap may simply be that men and women have different interests from an early age, and says the answer to getting more women into maths and engineering is probably a matter of motivation.

According to last year's results, even though girls perform as well as boys in their maths GCSEs, 60% of A-levels in the subject are taken by boys, who achieve 60% of grade As.

I am an engineer, who has worked in the chemical industry for most of my working career. When I graduated in the 80, I assumed we were at the start of a new era for women in science: I studied alongside intelligent and motivated women, opportunities seemed aplenty, in-roads had been made.

But 20 years down the line, only 8.7% of British engineers are women, the lowest proportion in Europe, compared with 25% in Sweden. So what has happened?

One of the main problems is that careers in science, technology, engineering and maths (known as Stem) are not sufficiently promoted in schools, with fewer children taking up these subjects at GCSE and A-level. Year in, year out, we are told that Britain has a skills shortage. The general lack of interest among schoolchildren in maths and science subjects, together with the underlying social conditioning that still remains — that science subjects "aren't really for girls" — has led to a double-whammy effect, reducing female entrants even further.

Over the past few years, I have been involved in Stemnet, an organization dedicated to promoting these careers by getting people who work in jobs from biologists to builders to talk to schoolchildren about what they do. It's an attempt to debunk the myth that maths and sciences are too difficult or too boring. I was amazed to see hundreds of schoolboys and girls at a recent event at the Science Museum, presenting a range of experiments and projects they had prepared. And the ones prepared by girls were equally challenging and sophisticated.

I agree with the new study that rather than focusing on the problems of stereotyping, we should devote more time to encouraging girls into science and technology: they clearly respond.

But encouraging schoolgirls into university and careers is not all. As is typical in most sectors, I see a number of female engineers at the entry and midlevels of companies, but precious few at the top. This is a huge waste of talent. It also raises the issue of certain professional inequality and a biased attitude towards women. The report has done well to challenge the myths behind women's underachievement in schools, but more work still needs to be done to address the problem of women's lack of achievement in the workplace. At least in the spheres closely related to science and engineering.

**15.** Dr. Gijbert Stoet claims that women do worse than men at maths because they ...

- 1) use improper methods in problem-solving.
- 2) are not encouraged to do the subject.
- 3) do not believe in their own competence.
- 4) employ wrong stereotypical techniques.

**16.** Last year's A-levels maths results show that...

- 1) boys are more likely to fail.
- 2) more girls take the subject.
- 3) girls do better than boys.
- 4) boys get more A grades.

**17.** Which of the following statements is NOT true, according to paragraphs 5 and 6?

- 1) Britain has fewer women engineers than other European countries.
- 2) The author has worked in engineering for over 20 years.
- 3) The prospects for women in science are best in Sweden.
- 4) The author's expectations about women in science have not come true.

18. According to the author, social conditioning taking place in Britain implies that...

- 1) science could be interesting.
- 2) math is an optional skill.
- 3) boys are smarter than girls.
- 4) science is for boys.

19. "They" in "to talk to schoolchildren about what they do" (paragraph 7) may refer to ...

- 1) schoolchildren.
- 2) careers.
- 3) experiments.
- 4) scientists.

20. According to the final paragraphs, which of the factors discouraging girls from careers in science appears to be most important?

1. Academic underachievement.
2. Lack of opportunities in career growth.
3. Social stereotypes.
4. Lack of encouragement.

21. The author's attitude to the problem may be called ...

- 1) interested.
- 2) impartial.
- 3) negative.
- 4) biased.

1. Plan beforehand
2. Carnival roots
3. The best viewpoints
4. Styles of dancing
5. A music group for a street
6. Carnival's music
7. The time for pleasure
8. The time to attend the Carnival

**A.** Carnival is the most famous holiday in Brazil and has become a world-famous annual celebration. It is celebrated in towns and villages throughout Brazil for almost a week 40 days before Easter, which is usually in February, the hottest month in the Southern Hemisphere. Officially, it starts on Saturday and finishes on Fat Tuesday with the beginning of Lent on Ash Wednesday, during which some Christians give up something that they enjoy.

**B.** The most colourful events take place in the Carnival World Capital, Rio de Janeiro. It was the original place where, in 1723, Portuguese immigrants went out onto the streets soaking each other with buckets of water and throwing mud and food, often ending up in street brawls and riots. The concept kept changing throughout the 1800s with more organized parades, where the Emperor with a group of aristocrats joined in masks with luxurious costumes and music.

**C.** Now the parade varies from state to state. It is a mixture of arts. The music played during Rio Carnival is samba — a unique Brazilian music originating from Rio. It's also a dance form that was invented by the poor Afro-Brazilians as a type of ritual music. The word "samba" meant to pray to the spirits of the ancestors and the gods of the African Pantheon. As a noun, it could mean a complaint or a cry.

**D.** Even today, the most involved groups in Rio Carnival are the poorest, the so-called "favelas", where houses are made of cardboard or other metal remains, and there is often no water, electricity or sewage system. However, the favelas' residents always join in the festivities and actually make the Carnival, which really means a lot to them. Because, for once during the year, they get to go out and have as much fun as they can.

**E.** Residents of the favelas are often members of local samba schools and are deeply involved with the performance and costumes of their groups. Each neighborhood in Rio has its favorite Carnival street band. There are more than 300 of them in Rio nowadays, and each year this number increases. Each band has its place or street for its parade and the big ones usually close the streets to the traffic.

**F.** Rio de Janeiro is usually divided into three zones. The so-called Zona Sul is by far the most pleasant place to stay in Rio, as it is by the sea and is the most civilized part of the city. Districts Copacabana and Ipanema together form a big stage offering a carnival happening at every corner. Leblon, being a bit more upscale, is also an excellent location.

**G.** Except the industries, malls and the carnival-related workers, the country stops completely for almost a week and festivities are intense, day and night. If you plan to go to watch the Carnival, you should organize your trip well in advance. The best hotels, especially in the Zona Sul, are booked up early, so it's a good idea to make a reservation at least 3 or 4 months in advance.

### Orient Express

In the early 1860s, trains were the preferred way to travel. They weren't particularly comfortable, however, until American engineer George Mortimer Pullman decided to make trains more luxurious.

By the late 1860s, trains furnished not only sleeping cars, but kitchen and dining facilities, where **A** \_\_\_\_\_. This was innovative for the time, and was aimed to encourage people **B** \_\_\_\_\_. The first of these Pullman trains in England ran from London to Brighton and used electricity for illumination.

In 1881, another railway entrepreneur, George Nagelmacker, introduced the use of a restaurant car onboard, and the first Orient Express train service was begun. Running from Paris to Romania the route included Strasbourg, Vienna, Budapest and Bucharest.

Thanks to the 12 mile Simplon Tunnel, **C** \_\_\_\_\_, the Orient Express expanded, including a route to Istanbul, and the legendary romance of the Orient Express was in full swing.

Everyone in the social register, including royalty, chose to travel on the wheels of that luxury hotel **D** \_\_\_\_\_ in wealthy surroundings. Legends, stories, and intrigue surrounded those trips to exotic places, and those famous people **E** \_\_\_\_\_.

Unfortunately, during World War II this luxury travel was closed for the most part, and later, after the war, **F** \_\_\_\_\_ to start it again. Within the next few years airplane travel became popular, and train passenger service declined.
